## Purpose

This report is prepared by the Federation for the Humanities and Social Sciences (Federation) and provides information about the Awards to Scholarly Publications Program (ASPP) for the program year April 2018 to March 2019. It provides details on two distinct areas of the program: works funded and operational activities.

## About the ASPP

The Awards to Scholarly Publications Program is a key activity of the Federation for the Humanities and Social Sciences. Formerly known as the Aid to Scholarly Publications Program, the ASPP is a competitive funding program with a mandate to support books of advanced scholarship in the humanities and social sciences that make an important contribution to knowledge. Since 1941, the ASPP has supported the publication of over 7,000 books that have helped to enrich the social, cultural and intellectual life of Canada and the world.

Each year, the ASPP offers approximately 180 publication grants of \$8,000 and five translation grants of \$12,000, contributing about \$1.5 million to the dissemination of Canadian research.

The ASPP is funded by the Social Sciences and Humanities Research Council of Canada and administrated by the Federation.

## Report on works funded

All ASPP grants are approved in principle prior to publication, and are paid out following publication, directly to the publisher.

## Summary

The ASPP paid out 180 publication grants and five translation grants from April 1, 2018 to March 31, 2019. See Appendix A for a complete list of works that were supported by the ASPP in the 2018-19 year.

## Report on operational activities

### Research project

During the 2018-19 program year, the Federation continued work on a research project on the ASPP it undertook in December 2017. The aim of the project was to gather information on the status and health of scholarly book publishing in Canada, assess the Awards to Scholarly Publications Program (ASPP), and consider options for the future evolution of the program. The research, in the form of two reports delivered by consultants, will inform a proposal that the Federation will present to SSHRC in October 2019. The proposal will notably address the French and English imbalance among ASPP applications and present a plan to phase in Open Access as a requirement for ASPP funding.

### New grants management software

At the beginning of 2018, the Federation approved a project to implement a grants management software to streamline the application process, simplify the assessment of grant applications, and serve as a searchable database of funded works. A software was selected at the beginning of 2019 and data migration will occur during the summer with a launch planned before the end of the year. Once operational, it will allow the program to operate more efficiently.

### Bookmark It! blog series

In 2018-19, the ASPP continued publishing its blog series, *Bookmark It!* Introduced in July 2015, the monthly blog series celebrates ASPP-funded books by highlighting and sharing the story behind some of these fascinating and important books. Some books that were featured in the past 12 months include *The Trans Generation: How Trans Kids (and Their Parents) Are Creating a Gender Revolution* by Ann Travers and *Panser le Canada : une histoire intellectuelle de la commission Laurendeau-Dunton, 1963-1971* by Valérie Lapointe-Gagnon. All blogs in the series can be found here: <http://www.ideas-idees.ca/blog-category/bookmark-it>.

### Application assessment and approval level

The ASPP uses the following numerical assessment system for publication grant applications:

Score	Descriptor
5.0-6.0	Excellent. Strongly recommended for funding. The work is at the forefront of its field, and it will have significant impact within its discipline. The work's methodological/theoretical framework is strong. The manuscript is well structured and well written. The work's contribution to knowledge is important.
4.0-4.9	Very good. Recommended for funding. The work meets all the standards for high quality within its field and makes a major contribution within its discipline. The work's methodological/theoretical framework is sound, though some parts of it might have been strengthened. The manuscript has structural integrity, and is generally well written. The work's contribution to knowledge is of some importance.
3.0-3.9	Good. Recommended for funding if funds are available. The work meets most of the standards for high quality within its field, and makes a modest though interesting contribution within its discipline, but lacks distinction in at least one of the following areas: methodological/theoretical framework, structure, writing style, and/or importance.

<b>2.9 or less</b>	Not recommended for funding. The work meets some of the standards for achievement within its field, but makes only a limited contribution within its discipline, and is flawed in at least one of the following areas: methodological/theoretical framework, structure, writing style, and/or importance.
--------------------	---

The ASPP’s Publications Committee, which assesses applications for the awarding of publication grants, scores each application according to this scale. Each application is then ranked along with all other applications scored in that month and the top ranking applications are approved.

The **average monthly cut-off point** for this program year was **4.3**, and no application scoring 4.4 or above was declined for funding. This cut-off point is not fixed and may change in subsequent years.

### Summary of activities<sup>2</sup>

The following table outlines the operational activities of the ASPP from April 1, 2018 to March 31, 2019.

Applications	2018-2019	2017-2018	2016-2017	2015-2016
Received	254	226	270	262
Approved	196	177	180	181
Declined	53	54	94	66
Withdrawn	0	0	2	3
Ineligible	8	6	2	6
Closed	2	0	0	0

At the conclusion of the 2018-2019 program year, approximately **42 applications** were still in process.

The following breakdown by language is for information only; the language of an application is not a criterion for funding approval.

Applications	2018-2019		2017-2018		2016-2017		2015-2016	
	EN	FR	EN	FR	EN	FR	EN	FR
Received	218	36	182	44	227	43	222	40
Approved	167	29	150	27	152	28	161	20
Declined	43	10	42	12	80	14	53	13
Withdrawn	0	0	0	0	2	0	2	1
Ineligible	3	5	3	3	0	2	4	2
Closed	1	1	0	0	0	0	0	0

Of the 42 applications still in process at the conclusion of the 2018-2019 year, **36** were for works in **English** and **6** were for works in **French**.

<sup>2</sup> For the following charts, the number of applications approved, declined, etc. will not equal the number of applications received, because applications are sometimes resolved in a year other than the one in which they were received.

### **Approval rate**

Between April 1, 2018 and March 31, 2019, there were 245 publication grant applications that were processed and brought to resolution. Of these, 185 were approved, for an **overall approval rate of 76%**.

### **Translation grants**

Each year, the ASPP awards up to five translation grants to support translations of scholarly books. The ASPP's Academic Council meets twice a year to make decisions on the awarding of translation grants.

The ASPP received five translation grant applications in 2018-2019 and awarded two grants.

## Awards

Many ASPP-funded books go on to win awards within their disciplines. The Federation also awards the Canada Prizes to the best scholarly books in the humanities and social sciences that have received funding from the ASPP.

### 2019 Canada Prizes

Celebrating the best Canadian scholarly books—not simply within a single academic discipline, but across all the disciplines of the humanities and social sciences—the Canada Prizes are awarded to ASPP-funded books that make an exceptional contribution to scholarship, are engagingly written, and enrich the social, cultural and intellectual life of Canada.
